

Email Addresses for Health Sciences Have Changed

All Health Sciences email addresses changed recently, subsequent to changes in our service provider. **Please review the Health Sciences addresses you may have in your address book and make the necessary changes.**

Emails sent to the old addresses (ending in sasktel.net) were to be automatically forwarded to the new email address inbox (ending in hsa-sk.com). However, subsequent to Sasktel's recent server upgrades, this is not happening consistently. As a result, some members using the old email addresses have experienced **email bounce back** and the emails have not been received by Health Sciences.

Please ensure that you use the **new email addresses** (ending in hsa-sk.com)
