

Notice to all Health Sciences Members – July 12, 2011

The Health Sciences Negotiating team is currently in the process of producing a video for the Health Sciences website.

The video will present an overview of the *Memorandum of Agreement* (tentative agreement) reached on July 8, 2011 between Health Sciences and SAHO. We anticipate that the video will be posted to the website by the p.m. of Friday July 15.

When previous tentative agreements were reached, the Negotiating teams travelled to several locations in the province to meet with members and answer their questions with respect to the tentative agreement. We could not reach all communities with this approach, nor were all members able to attend these meetings. By posting the video to the website, many more members will be able to 'attend' this online 'meeting'.

All members are encouraged to view the video and to e-mail any questions they may have to hsasstoon@hsa-sk.com. Questions and the responses to the questions will be posted to an FAQ section on the website. This will allow you to view the video, have your questions answered and read the questions and answers of others prior to completing and returning your ballot.

Ballots have been mailed to all Health Sciences members. Accompanying the ballots are a printed copy of the *Memorandum of Agreement* (tentative agreement) and the unanimous recommendation of Health Sciences Executive Council that was passed on July 11, 2011 at a special meeting of the Executive Council.

Returned ballots must be postmarked no later than July 25, 2011.
