

## **• ADDICTIONS COUNSELLORS •**

- Addiction is a disease that impacts every segment of our province's society.
- Addictions Counsellors are dedicated, highly trained and educated health care professionals who assist their clients in learning about the destructive effects of addiction and how to more effectively manage their lives.
- Addictions professionals assist their clients in developing hope and motivation and by supporting them through all stages of their recovery process.
- Counsellors work with clients in outpatient, inpatient and detoxification facilities across our province.
- Alcohol, drug and gambling addictions affect many people in Saskatchewan and HSAS Addictions Counsellors are committed to help.
