

Dear Members:

During our lengthy strike action, we have received many e-mails from both members and non-members, offering their opinions on our public statements, negotiating strategy or approach to job action. That is everyone's right to share their opinions.

However, one e-mail I received a few days ago concerns me greatly. It is a **threatening** e-mail, which comes from someone who describes himself as a strong supporter of Brad Wall and the Saskatchewan Party. He equates the work of our union with "treason" and goes on to suggest that he and other Saskatchewan Party supporters have the money and the power to "chop us down to size".

The Premier and Minister of Health have often claimed how much they 'respect' the specialized health care professionals in the Health Sciences Association of Saskatchewan. It is my hope that they will now back up their words by publicly renouncing these types of threats from their supporters.

Cathy Dickson  
President  
Health Sciences Association of Saskatchewan

Want my voice added to the majority of people that have had it with the union leadership in Saskatchewan trying to overthrow the Brad wall Government! As union workers you are outnumbered by a 2 to 1 ratio. The vast majority of people in this province approve of wall and his government but a minority of "union leaders" feel it is their duty to protect all of us from the person we voted for and continue to support. You are losing public support by the hour, especially in light of the Crop Insurance Workers being pulled off of their jobs. It is no secret that the unions are collaborating and strategizing ways of getting the NDP back in power. That is not your damn mandate nor is what the union members pay their union dues for! I am offended, angry and have had it with this dying socialist movement in Saskatchewan that some of you refuse to let go of. Saskatchewan is changing and growing whether you like it or not. It is not the same backwards little hick province it was just a few, short years ago. You are in the minority in a big way! These immature, stupid boycotts of the John Gurley show are just another example of the "us vs. them" attitude of the union leaders and executive. Your own members have been petitioning to stop the boycott for chrims sake! So what do all of you do? Whatever will further your goal of overthrowing this government, NOT what the membership wants. You have members paying union dues so that you can try and bring down the government that the union member voted for.

Classless, boorish, irresponsible socialist losers is what you are!!! **You will pay dearly for this latest act of treason as there are "groups" like the one I am involved with that have money, power and huge motivation to chop you down to size and believe me when I say, "you will be chopped down to size."** The fine people of Saskatchewan have HAD IT with these efforts to overthrow a duly elected government that has done a tremendous job since taking power.

We hear the belly aching about essential services laws. Boo Hoo! We were the LAST province or territory in North America that didn't have this type of legislation. People have had with your whining, bitching, labor disruptions, ridiculous demands, etc! **You will pay a heavy price for the action you have taken against the people of this province - that is a guarantee you can bank on!**

Most Sincerely,  
Blair Pischak
