

## • **Assessor/Coordinators** •

---

- HSAS Assessor/Coordinators are highly skilled health care professionals who come from diverse educational backgrounds including nursing, social work, physical or occupational therapy
- Assessor/Coordinators assist clients with access to services from hospital as well as community in both rural and urban settings to ensure that the health care needs of Saskatchewan residents of all ages are addressed
- HSAS Assessor/Coordinators focus on assessment of individual needs and identifying appropriate services. They strive for timely referral to other health care providers within the home community whenever possible
- Assessor/Coordinators ensure that resources such as home care, community day programs, palliative care, personal care homes, addictions and mental health services, nutritional services, respite care and transportation services are put in place to care for Saskatchewan residents
- HSAS Assessor/Coordinators work diligently to ensure that more timely admission, discharge and referrals are available to help Saskatchewan families access the best possible health care services
